

EQUIPMENT & TOOLS (Roll Formers, Folders, Etc.)

SUPPLIES & SOLUTIONS

Acu-Form

Acu-Form is a manufacturer of metal forming equipment such as the Ag Panel, Post Cut Shear, Uncoiler, Corner, J-Channel, Ridge Cap, Rat Guard, Hemmer, Slitter, Wrapper, etc. We also make machines to your specs. Our goal is to meet and exceed our customers' expectations. Our number one priority is to send our customer a durable, top-performing machine that will give you years of trouble-free service.

www.acuformequipment.com
330-674-4003

ASC Machine Tools, Inc.

The ASC Alpha Series® is a revolutionary panel roll-forming line featuring heavy-duty cast stands with cast bearing blocks. The close-coupled pre-cut front end minimizes the equipment footprint to a total length of approximately 40'. The additional slitter pass and belt conveyor option allows the economic production of flat sheets and trim blanks—both exiting at a convenient height of approximately 30". The Alpha Series is also available as a post-cut line featuring a rugged hydraulic post-cut shear to produce panels down to 1' in length.

The Bradbury Group

The Bradbury Panther Cub III™ Slit light-gauge slit, cut-to-length unit is ideal for trim shop work and light roll-forming applications. It allows you to slit and shear or slit and recoil. Features include a moving front end, allowing operators easy access to slitter knives; a hand wheel adjust lever for precision depth control; the ability to stop and move slitter knives to reduce scrap; an up-cut shear for sheet-on-sheet stacking; and the Beck Automation Cobalt Control.

CIDAN Machinery Group

The Forstner nuSLIT slit-cut-to-length is a programmable slitting line that features an easy-to-use control system that can program slit width, length, and quantities faster. Coil can be fed into the machine and the slitting knives are controlled directly from the screen, all for easy handling while maximizing each cut. The ergonomic operating panel, adjusting width of infeed guide rails, and locking in position can all be operated from either side of the machine, allowing more flexible use of floor space.

Hershey's Metal Meister

Wouldn't you like to have the same kind of quality and service that you strive to deliver to your customers? Variobend USA is the answer to your quest for speed, accuracy, and service in a trim folder. With European design coupled with American manufacturing and service, Variobend USA folders are built with you in mind. Look no further! Contact Hershey's today to experience it for yourself! Need more proof? We are happy to let you talk with Variobend USA owners.

888-865-8740

MetalForming Inc.

The Schleich Quadro Portable Rollformer is the most advanced portable roll-forming system in the world. The Quadro is the only machine of its kind with instant changeover from one profile to another by simply rotating tooling cassettes (30 seconds to 10 minutes). It does more than any machine of its kind in terms of the huge variety of profiles (11), the variety of accessories you can add, the versatility it has for running starter panels, and its portability.

800-574-1717

Star 1 Products LLC

The Star 1 Felt Applicator has all the features you want for fast, easy, and consistent felt application. Consistent tension on the backer provides reliable peel off. Precise left to right adjustments ensure accurate felt placement. It takes a single man to operate. Bulky felt rolls are easily moved with a felt cart. Hand wheels make it easy to load varying roll sizes, accommodating 39"- or 41"-wide felt. A splicing table allows you to make concealed felt seams, drastically reducing waste in metal and felt.

231-825-0163

SWI Machinery

Minimize waste and maximize efficiency with our Marxman Plus Automatic Slitter. With eight pairs of auto-setting slitting blades, automatic part nesting, waste minimization software, and the capability to run up to 150 fpm, the Marxman Plus is outfitted with all the features to take your production to the next level. It's also possible to connect an offline label printer to the Plus so that labels can be printed for manual application by the operator.

EQUIPMENT & TOOLS (Packaging Systems, Hand Tools)

SUPPLIES & SOLUTIONS

Albatross Supply LLC

Shrikes are an innovative product designed to replace wood dunnage for stacking and transporting metal roofing panels. Shrike™ A and Shrike™ R are designed to fit over the panel rib profile. This transfers the weight to the flats of the panel. The reinforced polyethylene design eliminates scratches and rub-through marks. The profile cutout on each end of the Shrike is designed with a convex to hold the tie-down straps securely. UV inhibitors ensure your investment will work hard and last long.

Ameripak of Kentucky

Ameripak horizontal stretch wrappers are extremely beneficial to the roll-forming industry for many reasons. From our economy line to semi-auto/fully automated lines, Ameripak's horizontal units are made of non-proprietary, off-the-shelf parts, built in the U.S. and welded with the highest quality steel, ensuring a durable piece of equipment. Each conveyor is carefully designed to suit your specific application. Ameripak has been perfecting metal wrapping equipment for more than two decades.

BECK America

The SCRAIL® RoofLoc® system was developed to install metal roofing and façades quickly and efficiently. Two times faster than collated screws and eight times faster than bulk screws, this performance could only be achieved through the combination of the pneumatic Roofing Installation Tool and the patented SCRAIL® RoofLoc®. The tool design allows for excellent ergonomics and tool balance, which promotes better ease of use, even on the longest, toughest jobs.

Heartland Sales & Machine LLC

From manual to fully automatic, Heartland manufactures wrappers used for trim, standing seam, and panel. Standard and customized wrappers available. Heartland also offers mechanical coil tippers with 12,000- to 30,000-pound capacity so you never have to leave your forklift seat! Machines you can depend on.

574-223-6931

Roll Former Corporation

Since 1978, Roll Former seamers have a history of quality and durability. Our seamers produce perfect seams on all materials from 12 oz. copper to 24-gauge Kynar-finished galvanized/Galvalume at 30 fpm without damage to the material. They can seam NTM, Knudson, and ESE profiles! The Model SSX will form a complete double-lock standing seam with a single pass. Our exclusive nose switch cuts the unit off if it comes to the edge of the roof, eliminating expensive and time-consuming accidents.

Tough Trade Tools

Better and safer tools for contractors is the aim of Tough Trade Tools (formerly County Line Concepts). The RidgeLine and Ridgeline9 were introduced in 2019. They are oversized protractors for making precise cuts of large building materials such as metal and wood. Manufactured in the U.S., the RidgeLine9 is mounted on an HDPE body and used to mark angles on 9" OC metal panels, with extendable arms capable of "0" to 12/12 pitch, rotating left or right. The RidgeLine is used to mark angles from "0" to 12/12 pitch on any flat material, also rotating left or right.

CONTROLS & SOFTWARE

SUPPLIES & SOLUTIONS

AMS Controls

AMS Controls develops advanced hardware and software technologies that increase profitability and productivity for the metal forming industry. AMS Controls' customers include some of the largest metal processing operations, including those producing metal buildings, metal roofing, light-gauge framing, fenestration, custom roll-formed parts, HVAC ductwork, and more. With over 14,000 installations at more than 4,500 locations worldwide, AMS Controls sets the standard for operational efficiency in the metal form.

AppliCad USA Inc.

AppliCad has developed software for simplified roof modeling in 3D that results in comprehensive cladding material and labor take-off, client proposals, and job planning. The software creates complete material lists, cutting lists, workshop details, supplier orders, and a labor summary at the click of a mouse button. With 25+ years experience and software in 148 countries, AppliCad knows how to do estimates for metal roofing and wall cladding, including all associated trim and accessory items.

Beckers Group

For a high-performance coating designed to last 40-plus years, with excellent color and gloss retention, BeckryTech Super-Durable Polyester is an ideal solution. BeckryTech is based on a resin chemistry that is less reactive to UV light than the leading silicone modified polyester (SMP) products and resists the water “hazing” effect commonly found in coil-coated SMP products. The Super-Durable Polyester product line is used around the world for high-end projects and meets AAMA 2604 in all color families.

Flack Global Metals

Flack Global Metals (FGM) was founded with the mission to reinvent how metal is bought and sold. We’ve created a metals service center like no other—combining expertise in merging physical supply chains with financial tools. We provide extensive processing capabilities and deliver a wide range of flat-rolled products including aluminum, carbon steel, stainless, and pre-painted metals. We also offer customized fixed-pricing programs that enable customers to profitably manage both margin and timing of physical raw material.

COMPONENTS & ACCESSORIES

SUPPLIES & SOLUTIONS

AceClamp

AceClamp® is a U.S.-based manufacturer of fast-installing, precision-engineered snow retention, and solar mounting solutions. Compatible with almost any roof type, including metal, membrane, slate, and asphalt, our patented, non-penetrating "slide-pin" clamp design eliminates the need for setscrews. This unique design protects the roofing panel's finish from installation damage, therefore preserving the warranty. Simplify inventory with one set of clamps for all your seams, whether you're installing snow retention or solar. Make the switch to AceClamp.

Atlas Bolt & Screw Co., LLC

Atlas Bolt and Screw, the recognized industry leader, manufactures and distributes fasteners to the roll-forming industry, including our long-life Ultimate product line. Finished with a mechanical zinc-plated shank, this fastener is warranted against red rust for the life of the building. It features an EPDM tubular washer for a reliable seal. These fasteners are compatible with magnetic nutsetters due to their cast zinc head. The Metal Ultimates are available in a variety of sizes.

www.atlasfasteners.com
419-289-6171

Direct Metals Inc.

Direct Metals Inc. supplies fasteners and building accessories to the post-frame and steel-frame building industries. A key product is the #12 diameter SCAMP 304 Stainless Steel Cap metal-to-wood fastener that can be used in new construction or as a replacement fastener. Other products include PAN-CLIP fasteners, rivets and panel clips for standing seam metal roofs, sealants, pipe flashings, solid and vented foam closures, reflective insulation, and polycarbonate panels.

DripStop/Filc USA

DripStop from Filc USA helps fight condensation without insulation. Specially designed air pockets store condensation and hold it until conditions change and it evaporates back into humidity. DripStop arrives at the job site already on the steel, saving time and money by removing one step of the building process. It eliminates the need for insulation while also helping fight corrosion by adding another layer of protection from the corrosive elements found in livestock confinement.

Dynamic Fastener

Dynamic Fastener has released a new version of its popular Tool and Fastener Hand Guide. This 140-page, full-color free gem provides concise answers to questions pertaining to fastener applications; engineering data; and availability of types, size ranges, and fastener materials specific to the metal building industry. In addition to discussing screws and anchors, the Guide provides prices and other useful information relating to flashings, sealants, insulation tapes, safety equipment, hand tools, power tools, and more. The 2021 publication includes details on the Dyna-Guard snow retention system for metal roofs. It also includes information about the company's new rivet initiative that resulted in a stock level of 100 million rivets with 75 million pre-painted in more than 100 different colors. Call to obtain your free 140-page Hand Guide.

East Coast Fasteners

East Coast Fasteners produces durable fasteners for all combinations of building materials. The Ply-Lo Extreme line of fasteners is designed for extreme environments. The Ply-Lo Driller is the latest innovative addition to the company's fastener line, designed to save contractors time and money. The patented Ply-Lo Driller features a design intended to be more forgiving than other fasteners. This means the tip is designed to reduce the likelihood of "walking" when fasteners are driven at a slight angle. Less walking means quicker and easier installation as well as a reduction in material damage and waste. East Coast has fasteners available in colors to match virtually any panel in lengths of 1", 1½", 2", 2½", and 3".

866-564-2678

Midwest Enterprises

Hydroclean® High Capacity gutter guards are engineered for heavy rain volume areas where the perforated surfaces work hard to channel away excess rainwater. Best on long runs of standard shingles, very steep roofs, and metal roofs, the 5" guards have three rows of perforations, where guards for 6" and 7" gutters have six rows to handle even greater volumes.

www.e-zgutter.com
800-748-7736

MWI Components

Eliminate the installation of a "Z" closure with MWI's Universal Ridge Clip. This 22-gauge galvanized clip is perfect for standing seam roofs, as it provides a large fastening area for any style ridge cap. If you value your dollar, this clip is essential for your wallet. When used with MWI's pre-cut Uni-Vent II, it provides the lowest-cost ridge ventilation system for a standing seam roof on the market. No fasteners pervade the panel where they will be exposed to the weather, plus, no fasteners need to penetrate the standing seam.

www.mwicomponents.com
800-360-6467

RoofAquaGuard

Aqua Defender creates a lasting barrier between a building's metal envelope and the harmful effects of condensation. Adhered directly to the roof and wall panels during manufacturing, Aqua Defender forms a soft, clean surface. It absorbs moisture, prevents rust from forming, and extends the maintenance-free life of the building. Its light color can even reduce lighting demands. Aqua Defender stands between condensation and the roof, guarding against rust, corrosion, and drips. It keeps buildings clean and dry and livestock, equipment, and inventory safe.

INSULATION, VENTILATION

SUPPLIES & SOLUTIONS

Marco Industries

As North America's leading ventilation manufacturer, Marco Industries offers superior roof ventilation your way, with products tailored to fit specific performance requirements and budgets. Our ventilation products feature an exclusive nonwoven polyester material that delivers extreme durability and breathes to help prevent moisture absorption. All ventilation products offer a 40-year limited warranty, easy one-person installations, and two full beads of M63, Marco's proprietary adhesive, for superior hold.

www.marcoindustries.com
800-800-8590

Plyco Corporation

Plyco manufactures and distributes a variety of ventilation products designed to meet most airflow requirements. The MWE-100 is a low-profile unit, 10' in length with 12 square inches of free air space per lineal foot. The MW100-25 has a higher profile than the MWE and is open at the top. The ventilator has an internal diverter to direct rain off to the side and out onto the roof. The MW100-35 has the same design as the 25 series, with increased free air space of 36 square inches per lineal foot. The FMW100-35 is of the same design as the 35 series, but the diverter is made from translucent fiberglass to allow light into the building ridge while keeping the rain out.

rFOIL Insulation / Coverttech

rFOIL 2600 Series reflective insulation is a layer of polyethylene bubbles bonded to and sandwiched between a radiant barrier metalized foil and white polyethylene sheet. rFOIL is specifically designed to control heat gain or loss, and prevent interior condensation, in all types of metal and metal-clad buildings. The rFOIL 2600 is the first reflective bubble insulation to come with an unmatched 10-year guarantee against ultraviolet light degradation, delamination, cracking, peeling, or flaking. The guarantee includes new material and up to \$0.75/sq.ft. for any labor replacement costs. Tested to ASTM G-155 for UV resistance and facing surface degradation. Class 1/A Fire Rating and passes NFPA-286 full room burn test. Better thermal value and condensation control than fiberglass insulation.

www.rfoil.com/insulation-product
800-837-8961

Snap-Z

You probably have experience with traditional foam ridge vents. It's only a matter of time until the foam starts working loose and then falls out from under the ridge cap. Snap-Z's innovative design uses absolutely no exposed foam so it's impossible for it to slip out of place, thus resulting in maintenance-free foam. With 16 colors to choose from, you can also match the ridge vent to the color of metal you are working with. Snap-Z's coatings are fade-resistant for a long-lasting color match. Order Snap-Z in Eco-Black and it will be shipped the next day. Eco-Black gives you the most ridge vent for your money compared to other colors. The matte black color works great with any color roof because the color contrast is hidden in the shadow line.

www.standingseamroofvent.com
717-572-0910

ST Fastening Systems

ST Fastening Systems supplies its MultiVent, MultiVent10, and MultiVent20 closures for those applications requiring airflow on metal roofs. Open cell foam MultiVent, 3' in length, woven polyester MultiVent10, 10' in length, and MultiVent20, 20' in length, allow as much as 98" free airflow through the material. However, it prevents wind-driven rain from penetrating the material when compressed. The designs are universal for both, with adhesive applied for easy field installation. MultiVent can be used on angled roof applications and MultiVent10 and MultiVent20 for ridge cap applications.

www.stfasteningsystems.com
800-352-4864

Ventco

ProfileVent is a single-layer ridge vent designed for metal roofs, specifically cut to fit more than 50 profiles. Mongoose, a ridge vent designed for sloped shingle roofs, has a pressure-sensitive strip to provide permanent adhesion to shingles. RidgeVent is an excellent choice for cedar, asphalt, and slate roofs. Contractor's Choice ridge vent for sloped roofs helps vent the attic. Hip & Ridge Vent is for universal application to any screw-down panels 1/2" to 1 1/2" high. All Ventco products are manufactured in the U.S.
